As part of the Company's annual compensation review, the Board of Directors has authorized the grant of an aggregate of 1,641,504 incentive stock options (the "**Options**") to directors, officers, employees and consultants of the Company. The Options have an exercise price of \$1.25 per share, are exercisable for a period of five-years from the date of grant and will vest as follows: one-third on date of grant, one-third on the first anniversary of the date of grant and one-third on the second anniversary of the date of grant. The Options were granted pursuant to the Option Plan re-approved by the shareholders today.

In addition, the Board of Directors authorized the grant of an aggregate 348,000 restricted share units ("**RSUs**") to senior management of the Company and an aggregate of 180,000 deferred share units ("**DSUs**") to independent directors of the Company. The RSUs awarded will vest over a period of three years from the date of grant, a third on each anniversary date, and the DSUs will not vest until such time as the recipient independent Directors cease to be Directors of the Company. The RSUs and DSUs were granted pursuant to the Company's new RSU Plan and DSU Plan approved by the Company's shareholders today. Complete details regarding each of the Option Plan, RSU Plan and the DSU Plan are laid out in the Circular which is filed on SEDAR.

### **About Orla Mining Ltd.**

Camino Rojo is an advanced gold and silver project located in Zacatecas State, Central Mexico. The project is 100% owned and covers over 200,000 hectares. Access and infrastructure are excellent with a paved highway and powerline nearby. A NI 43-101 Technical Report on Camino Rojo will be available on SEDAR under the Company's profile by June 13, 2018. Orla also owns 100% of the Cerro Quema project in Panama which includes a near-term gold production scenario and various exploration targets. Cerro Quema's 14,800-hectare concession is close to infrastructure with easy access to site and strong community support. The Cerro Quema project is currently in the last stage of the permitting process for a proposed open pit mine and gold heap leach operation. Please refer to the "Cerro Quema Project - Pre-feasibility Study on the La Pava and Quemita Oxide Gold Deposits" dated August 15, 2014, which is available on SEDAR.
