# ORLA MINING LTD.

Notes to the Condensed Interim Consolidated Financial Statements

Three and nine months ended September 30, 2020 and 2019

(Unaudited – United States dollars, unless otherwise stated). All currency figures in tables are in thousands, except per-share amounts)

---

## 1. CORPORATE INFORMATION AND NATURE OF OPERATIONS

Orla Mining Ltd. was incorporated in Alberta in 2007 and was continued into British Columbia in 2010 and subsequently into Ontario under the Business Corporations Act (Ontario) in 2014. The “Company”, “Orla”, “we”, and “our” refer to Orla Mining Ltd. and its subsidiaries. The registered office of the Company is located at Suite 202, 595 Howe Street, Vancouver, Canada.

The Company is engaged in the acquisition, exploration, and development of mineral properties, and holds the Camino Rojo gold and silver project in Zacatecas State, Mexico, and the Cerro Quema gold project in Panama.

These consolidated financial statements have been prepared on the assumption that the Company will continue as a going concern, meaning it will continue in operation for the foreseeable future and will be able to realize assets and discharge liabilities in the ordinary course of operations. Different bases of measurement may be appropriate if the Company is not expected to continue operations for the foreseeable future. As at September 30, 2020, the Company had not advanced any of its properties to commercial production and was not able to fund day-to-day activities through operating activities. During the second quarter of 2020, the Company completed a C\$75 million (\$55 million) equity financing. To the end of the reporting period, the Company had received \$25 million of a \$125 million project loan facility in respect of the Camino Rojo project, and subsequent to the reporting period received a further \$50 million.

The Company's continuation as a going concern is dependent upon successful results from our mineral exploration and development activities and our ability to attain profitable operations and generate cash or raise sufficient capital to meet current and future obligations. We expect to fund operating costs of the Company over the next twelve months with cash on hand and with further loan and/or equity advances.

Since the beginning of the fiscal year, there was a global outbreak of the novel coronavirus (“COVID-19”), which has had an impact on businesses through the restrictions put in place by the governments in the various jurisdictions where the Company conducts its activities. In common with all businesses in the jurisdictions in which we operate, our activities are restricted by government orders related to, among others, travel, business operations, and stay-at-home orders. As of the date of these financial statements, it is not possible to determine the extent of the impact that this global health emergency will have on the Company's activities in the future as the Company cannot predict the ultimate geographic spread of the disease, the duration of the outbreak, and possible government, societal, and individual responses to the situation. We continue to monitor our activities, in particular with regard to the safety of our personnel and the communities where we conduct our activities.

## 2. BASIS OF PREPARATION

These condensed interim consolidated financial statements have been prepared in accordance with IAS 34 «Interim Financial Reporting» and do not include all the information required for full annual financial statements.

The preparation of consolidated financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

These condensed interim consolidated financial statements are presented in United States dollars and include the accounts of the Company and its wholly owned subsidiaries. All material intercompany transactions and balances have been eliminated upon consolidation.

On November 12, 2020, the Board of Directors approved these consolidated financial statements for issuance.

## 3. CHANGE OF PRESENTATION CURRENCY

As a result of the continued advancement of the Camino Rojo Project, the Company changed its presentation currency from Canadian dollars to United States dollars effective January 1, 2020. The change in the financial statement presentation currency is an accounting policy change and has been accounted for retrospectively. The balance sheets for each period presented have been translated from the related subsidiary's functional currency to the new US dollar presentation currency at the rate of

# ORLA MINING LTD.

Notes to the Condensed Interim Consolidated Financial Statements

Three and nine months ended September 30, 2020 and 2019

(Unaudited – United States dollars, unless otherwise stated. All currency figures in tables are in thousands, except per-share amounts)

exchange prevailing at the respective balance sheet date except for equity items, which have been translated at accumulated historical rates from the related subsidiary's date of incorporation. The statements of loss and comprehensive loss were translated at the average exchange rates for the reporting period, or at the exchange rate prevailing at the date of transactions. Exchange differences arising in 2018 on translation from the related subsidiary's functional currency to the United States dollar presentation currency have been recognized in other comprehensive income and accumulated as a separate component of equity.

In prior reporting periods, the translation of the Company's subsidiaries that had a United States dollar or Mexican peso functional currency into the Company's presentation currency of the Canadian dollar gave rise to a translation adjustment which was recorded as an adjustment to accumulated other comprehensive income ("AOCI"), a separate component of shareholders' equity. With the retrospective application of the change in presentation currency from the Canadian dollar to the US dollar, the AOCI related to the translation of US dollar functional currency subsidiaries was eliminated. However, with the retrospective application of the change in presentation currency to the US dollar, the Company's corporate office, which has a Canadian dollar functional currency, resulted in an AOCI balance. The AOCI balance generated by the Mexican peso entities has been adjusted since it now reflects the translation into the new US dollar presentation currency.

## (a) Adjustment to previously reported financial information due to change in presentation currency

For comparative purposes, the consolidated balance sheets as at December 31, 2019 and January 1, 2019 include adjustments to reflect the change in the presentation currency to the US dollar, which is a change in accounting policy. The exchange rates used to translate the amounts previously reported into US dollars at December 31, 2019 were 1.2988 CAD/USD and 18.87 MXN/USD, and at January 1, 2019 were 1.3642 CAD/USD and 19.65 MXN/USD. Refer to note 22(a) for the effects of the translation.

For comparative purposes, the consolidated statement of loss and comprehensive loss for the three and nine months ended September 30, 2019 includes adjustments to reflect the change in the presentation currency to the US dollar, which is a change in accounting policy. The exchange rates used to translate the amounts previously reported into US dollars for the three and nine months ended September 30, 2019 were 1.3292 CAD/USD and 19.2511 MXN/USD, which were the average exchange rates for the period. Refer to note 22(b) for the effects of the translation.

## (b) Functional currency

The functional currencies of the Company and its subsidiaries, all of which are wholly owned, remained unchanged and were as follows for periods presented.

Orla Mining Ltd. ....	Canadian dollars
Minerometalúrgica San Miguel S de RL de CV .....	Mexican pesos
Minera Camino Rojo SA de CV.....	Mexican pesos
Minera Cerro Quema SA .....	United States dollars
Monitor Gold Corporation .....	United States dollars

## 4. SIGNIFICANT ACCOUNTING POLICIES

We applied the same accounting policies in these condensed interim consolidated financial statements as those applied in the Company's annual audited consolidated financial statements as at and for the year ended December 31, 2019.

In preparing these condensed interim consolidated financial statements, the significant judgements we made in applying the Company's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the annual consolidated financial statements as at and for the year ended December 31, 2019.

These condensed interim consolidated financial statements should be read in conjunction with the Company's annual audited consolidated financial statements as at and for the years ended December 31, 2019 and 2018.

## ORLA MINING LTD.

Notes to the Condensed Interim Consolidated Financial Statements

Three and nine months ended September 30, 2020 and 2019

(Unaudited – United States dollars, unless otherwise stated. All currency figures in tables are in thousands, except per-share amounts)

### 5. EXPLORATION AND EVALUATION

#### (a) Camino Rojo Project

The Camino Rojo Project lies 190 km NE of the city of Zacatecas, 48 km S-SW of the town of Concepcion del Oro, and 54 km S-SE of Newmont Corporation's ("Newmont") Peñasquito Mine. In November 2017, we acquired the Camino Rojo Project, a gold and silver oxide heap leach project located in Zacatecas State, Mexico, from Goldcorp Inc. (now called Newmont Corporation). A 2% net smelter return royalty (the "Royalty") on the sale of all metal production from the oxide material at Camino Rojo was granted to Newmont as part of the acquisition.

The Company and Newmont also entered into an option agreement regarding the potential development of sulphide operations at Camino Rojo. Pursuant to the option agreement, Newmont will, subject to the applicable sulphide project meeting certain thresholds, have an option to acquire a 60% or 70% interest in the applicable sulphide project ("Sulphide Option"). The Royalty excludes revenue on the sale of metals produced from a sulphide project where Newmont has exercised its Sulphide Option. We maintain a right of first refusal on the Royalty. On September 21, 2020, Newmont announced that it had entered into an agreement to sell the Royalty. Our right of first refusal expires on December 20, 2020.

As of the issuance date of these financial statements, we have received all permits for the construction of a mine at Camino Rojo. The permits were issued with a series of customary conditions, all of which have been met or have been submitted for final approval. In anticipation of such approvals, we have already commenced activities such as construction engineering and design work which are not necessarily of an exploration and evaluation nature. Consequently, we are presenting these costs as construction in progress.

#### (i) Construction in progress

	Total
<b>Construction in progress at historical rates</b>	
At December 31, 2019	\$ —
Additions	2,685
At September 30, 2020	\$ 2,685
<b>Accumulated foreign exchange on translation</b>	
At December 31, 2019	—
Due to changes in exchange rates	(92)
At September 30, 2020	\$ (92)
<b>Construction in progress</b>	
At December 31, 2019	\$ —
At September 30, 2020	\$ 2,593

The figures in the above totals do not include deposits which have been made on key components and construction items related to the Camino Rojo project, which at September 30, 2020, totaled approximately \$18.1 million (December 31, 2019 – \$nil).

#### (b) Cerro Quema Project

The Cerro Quema Project is located on the Azuero Peninsula in Los Santos Province, Panama. The project is at the exploration and development stage for a proposed open pit mine with process by heap leaching.

In December 2016, we acquired 100% of the Cerro Quema Project by acquiring Pershimco Resources Inc. through the issuance of a combination of Orla common shares and warrants, and the assumption of Pershimco's long term debt, which we

## ORLA MINING LTD.

(Unaudited – United States dollars, unless otherwise stated. All currency figures in tables are in thousands, except per-share amounts)

subsequently paid off. We own the mineral rights as well as the surface rights over the current mineral resource areas, proposed mine development areas, and priority drill target areas.

The original 20-year terms for these concessions expired in February and March of 2017. The Company has applied for the prescribed ten year extension to these concessions as it is entitled to under Panamanian mineral law. In March 2017, the Ministry of Commerce and Industry provided written confirmation to the Company that the extension applications had been received and that exploration work could continue while the Company awaits renewal of the concessions. As of the date of these financial statements, final concession renewals have not been received; however, we continue to receive ongoing drilling, water use, environmental and other permits, and have paid concession taxes, in the normal course.

### (c) Monitor Gold Project

The Monitor Gold Project consists of three separate option agreements consisting of 422 claims covering 3,416 hectares in Nye County, Nevada, USA.

In 2019, the payments required under the option agreements consisted of \$50,000 in share issuances, a \$20,000 in advance royalty payments, and \$30,000 in work commitments, all of which requirements were met by the Company. For 2020, these consist of \$40,000 in advance royalty payments, and \$75,000 in work commitments, both of which requirements for 2020 have been met. To maintain the option agreements in good standing, minimum payments and work commitments are required each year until 2038.

### 7. VALUE ADDED TAXES (“VAT”) RECOVERABLE

Our Mexican entities pay value-added taxes (called “IVA” in Mexico) on certain goods and services we purchase.

We also paid approximately 72 million Mexican pesos (approximately \$3,860,000) of IVA on the initial acquisition of the Camino Rojo project, which is classified within exploration and evaluation assets as part of acquisition cost (note 5(a) and 5(d)).

IVA paid in Mexico is fully recoverable. However, IVA recovery returns in Mexico are subject to complex filing requirements and detailed audit or review by the fiscal authorities. Consequently, the timing of receipt of refunds is uncertain. Accordingly, we have classified Mexican IVA recoverable as long term.

### 8. TRADE AND OTHER PAYABLES

	<b>\$ 1,222</b>	<b>\$ 802</b>

### 9. CAMINO ROJO PROJECT LOAN

In December 2019, the Company entered into a loan agreement with Trinity Capital Partners Corporation (“Trinity Capital”) and certain other lenders with respect to a credit debt facility of US\$125 million for the development of the Camino Rojo Oxide Gold Project (the “Credit Facility”).

The Credit Facility provides a total of US\$125 million to the Company, available in three tranches. The first tranche of US\$25 million was drawn down by the Company on December 18, 2019 upon execution of the definitive loan documentation. The second and third tranches provide US\$50 million each, available for drawdown after satisfaction of conditions precedent, including the receipt of certain key permits required for the development of the Camino Rojo project.

Subsequent to the reporting period, the Company drew upon the second tranche of this Credit Facility.

## ORLA MINING LTD.

Notes to the Condensed Interim Consolidated Financial Statements

Three and nine months ended September 30, 2020 and 2019

(Unaudited – United States dollars, unless otherwise stated. All currency figures in tables are in thousands, except per-share amounts)

The Credit Facility is denominated in United States dollars, and bears interest at 8.80% per annum, payable quarterly commencing March 31, 2020, and is secured by all the assets of the Camino Rojo Project and the fixed assets of the Cerro Quema Project. The principal amount is due upon maturity at December 18, 2024, with no scheduled principal re-payments prior to maturity. The Company may prepay the loan, in full or in part, at any time during the term without penalty, by using cash flow from operations. The Credit Facility does not impose on the Company any mandatory requirements of hedging, production payments, offtake, streams, or royalties.

On December 18, 2019, the Company issued 32.5 million common share purchase warrants (with an exercise price of C\$3.00 per warrant and expiry date of December 18, 2026) to the lenders in connection with the closing of the Credit Facility.

	Nine months ended September 30, 2020	Year ended December 31, 2019

Amortization of the transaction costs	283	86
Foreign exchange	236	1
Balance, end of period	\$ 13,445	\$ 12,961

## 10. NEWMONT LOAN

As part of the Company's acquisition of the Camino Rojo project from Newmont, Newmont agreed to provide interest-free loans to the Company for all the annual landholding costs on the Camino Rojo project from November 7, 2017 until December 31, 2019. The loans are to be repaid upon declaration of commencement of commercial production of a heap leach operation at the Camino Rojo Project. To the date of these financial statements, 219,446,000 pesos had been advanced by Newmont under this agreement. No further advances in respect of this loan are expected.

The original agreement provided that the Company may, at its option, repay any amounts owing to Newmont, prior to maturity, in the form of (a) a lump sum cash payment, (b) the issuance of additional common shares of the Company, or (c) a combination of cash and shares (subject to certain maximum ownership limits). During the reporting period, the Company agreed with Newmont that the repayment would be made in cash.

Because the loan is non-interest bearing, for accounting purposes at the date of each advance, we discount the expected payments using a risk-adjusted discount rate and an estimated repayment date. Amounts received in excess of fair value on the date of the advances were credited to exploration expense.

#### (a) Issued share capital

On April 3, 2020, the Company closed an equity financing of 36,600,000 common shares at a price of C\$2.05 per common share for aggregate gross proceeds to the Company of C\$75,030,000 (\$54,959,000).

During the nine months ended September 30, 2020, the Company issued:

- 2,013,050 common shares pursuant to the exercise of warrants for proceeds of \$2,806,000 (note 13(b)).
- 1,837,103 common shares pursuant to the exercise of stock options for proceeds of \$1,689,000 (note 14(a)).
- 414,060 common shares pursuant to the vesting of RSUs (note 14(b)).
- 1,000,000 common shares pursuant to the vesting of bonus shares (note 14(d)).

## ORLA MINING LTD.

Notes to the Condensed Interim Consolidated Financial Statements

Three and nine months ended September 30, 2020 and 2019

(Unaudited – United States dollars, unless otherwise stated. All currency figures in tables are in thousands, except per-share amounts)

### (a) Stock options

Stock options outstanding	Number	Weighted average exercise price	
As at January 1, 2019	9,124,005	C\$	1.23
Granted	2,199,322		1.08
Exercised	(1,358,491)		1.16
Expired or cancelled	(47,500)		1.48
As at December 31, 2019	9,917,336		1.20
Granted	2,233,438		2.91
Exercised	(1,837,103)		1.23
Expired, forfeited or cancelled	(78,744)		1.17
As at September 30, 2020	10,234,927	C\$	1.57
Vested, December 31, 2019	7,229,622	C\$	1.22
Vested, September 30, 2020	7,715,687	C\$	1.37

The options granted during the nine months ended September 30, 2020 had an aggregate grant date fair value of \$2,015,000 (C\$2,729,000) which was determined using a Black Scholes option pricing model with the following assumptions:

- Expected volatility 48%, expected life 5 years, Canadian dollar risk free interest rate 0.5%, dividends nil.

The options granted during the nine months ended September 30, 2019 had an aggregate grant date fair value of \$737,000 (C\$932,000) which was determined using a Black Scholes option pricing model with the following weighted average assumptions:

- expected volatility 50%, expected life 5 years, Canadian dollar risk free interest rate 1.5%, dividends nil.

Subsequent to the reporting period, 175,000 stock options were exercised, for gross proceeds to the Company of \$19,980.

### (b) Restricted Share Units

Number of RSUs outstanding:	Total number	Number vesting in the year			
		2020	2021	2022	2023
Outstanding, December 31, 2019	1,014,972	365,882	365,880	283,210	—
Awarded during the period	320,447	—	106,818	106,815	106,814
Settled or cancelled during the period	(414,063)	(365,882)	(24,091)	(24,090)	—
Outstanding, September 30, 2020	921,356	—	448,607	365,935	106,814

RSUs are valued based on the closing price of the Company's common shares immediately prior to award.

## ORLA MINING LTD.

Notes to the Condensed Interim Consolidated Financial Statements

Three and nine months ended September 30, 2020 and 2019

(Unaudited – United States dollars, unless otherwise stated. All currency figures in tables are in thousands, except per-share amounts)

### (c) Deferred Share Units

<b>DSUs outstanding:</b>	
	Number
Outstanding, December 31, 2019	508,780
Awarded	135,745
Outstanding, September 30, 2020	644,525

DSUs are valued based on the closing price of the Company's common shares immediately prior to award.

### (d) Bonus shares

<b>Bonus shares outstanding:</b>	
	Number
Outstanding, December 31, 2019	1,500,000
Vested and issued during the period	(1,000,000)
Outstanding, September 30, 2020	500,000
Vested, September 30, 2020	500,000

During 2017, the Board of Directors awarded 500,000 common shares to the non-executive Chairman of the Company as bonus shares. The bonus shares are subject to a vesting period from June 19, 2017 to June 18, 2020 (the "Eligibility Period"). If the non-executive Chairman ceases to be the director of the Company before the Eligibility Period ends, the bonus shares will be forfeited. The bonus shares will become issuable (1) after the Eligibility Period on the date that the non-executive Chairman ceases to act as a director of the Company, or (2) upon a change of control of the Company.

We estimated the fair value of the bonus shares (\$1.31 each) based on the market price of the common shares at the date of the grant. The amount of \$655,000 was recognized on a straight line basis over the Eligibility Period.

On November 13, 2018, the Board of Directors awarded 1,000,000 bonus shares to an officer of the Company. The bonus shares were structured in four tranches of 250,000 bonus shares each, vesting and issuable upon the achievement of certain share price thresholds particular to each tranche. Upon initial recognition we estimated the dates that each of these market condition tranches would vest, such dates ranging from December 2019 to March 2022. The award date fair value (\$537,000, or \$0.537 per bonus share) is recognized on a straight line basis over the estimated vesting periods. During the three months ended June 30, 2020, two of these tranches vested and the bonus shares were issued. The third and fourth tranches of 250,000 each vested during the three months ended September 30, 2020 and the bonus shares were issued. Consequently, the total fair value has been recognized as at September 30, 2020.

## 15. RELATED PARTY TRANSACTIONS

The Company's related parties include:

<b>Related party</b>	<b>Nature of the relationship</b>
Key management personnel	Key management personnel are the Chief Executive Officer, the Chief Operating Officer, the Chief Financial Officer, and members of the Board of Directors of the Company.

## ORLA MINING LTD.

### (b) Cash and cash equivalents

Cash consists of the following:

	September 30, 2020	September 30, 2019
Bank current accounts and cash on hand	<b>\$ 41,743</b>	\$ 3,876

## 17. SEGMENT INFORMATION

### (a) Reportable segments

The operating segments of the Company are based on the reports which are reviewed by the chief operating decision maker (“CODM”) in making strategic resource allocation decisions. These operating segments are the Panamanian projects, the Mexican projects, and the corporate office. The projects are each managed by a dedicated General Manager and management team. Additionally, the corporate office oversees the plans and activities of early stage exploration projects, such as the Monitor Gold project.

None of these segments yet generate revenue from external customers, and each of the projects are focused on the exploration and evaluation of mineral properties.

### (b) Geographic segments

We conduct our activities in four geographic areas: Mexico, Panama, the United States, and Canada.

	Mexico	Panama	USA	Canada	Total
<b>At September 30, 2020</b>					
Equipment	\$ 159	\$ 32	\$ —	\$ 64	\$ 255
Exploration and evaluation assets	36,180	82,429	314	—	118,923

	Mexico	Panama	USA	Canada	Total
<b>At December 31, 2019</b>					
Equipment	\$ 140	\$ 48	\$ —	\$ 96	\$ 284
Exploration and evaluation assets	42,900	82,429	314	—	125,643

## 18. CAPITAL MANAGEMENT

Our objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to pursue the exploration, evaluation, and development of our mineral properties and to maintain a flexible capital structure. In the management of capital, we include long term loans and share capital.

There was no change to our policy for capital management during the three and nine months ended September 30, 2020.

We manage our capital structure and adjust it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the Company's capital structure, we may issue new shares, take on additional debt,

## ORLA MINING LTD.

Notes to the Condensed Interim Consolidated Financial Statements

Three and nine months ended September 30, 2020 and 2019

(Unaudited – United States dollars, unless otherwise stated. All currency figures in tables are in thousands, except per-share amounts)

---

acquire or dispose of assets, or adjust the amount of cash and short-term investments. To maximize ongoing development efforts, we do not currently pay dividends.

At the end of 2019, we entered into a Credit Facility (note 9) in respect of the Camino Rojo project pursuant to which we have drawn \$25 million of a total available \$125 million. The Credit Facility requires us to maintain a minimum working capital of \$5 million.

Our investment policy is to invest the Company's excess cash in low risk financial instruments such as term deposits and higher yield savings accounts with major Canadian banks. By using this strategy, the Company preserves its cash resources and is able to marginally increase these resources through the yields on these investments. Our financial instruments are exposed to certain financial risks, which include currency risk, credit risk, liquidity risk and interest rate risk.

Our ability to carry out our long-range strategic objectives in future years depends on our ability to generate positive cash flows from our mining operations and to raise financing from lenders, shareholders, and other investors. We continue to regularly review and consider financing alternatives to fund the Company's ongoing exploration and development activities.

## 19. FINANCIAL INSTRUMENTS

### (a) Fair value hierarchy

To provide an indication of the reliability of the inputs used in determining fair value, we classify our financial instruments into the three levels prescribed by the accounting standards.

- |         |  |
|---------|--|
| Level 1 | The fair value of financial instruments traded in active markets (such as publicly traded equity securities) is based on quoted (unadjusted) market prices as at the reporting date. The quoted market price used for financial assets held by the Company is the closing trading price on the reporting date. Such instruments are included in Level 1.   |
| Level 2 | The fair value of financial instruments that are not traded in an active market is determined using valuation techniques. These valuation techniques maximize the use of observable market data where it is available and rely as little as possible on entity specific estimates. If all significant inputs required to fair value an instrument are observable, we include that instrument in Level 2. |
| Level 3 | If one or more of the significant inputs is not based on observable market data, the instrument is included in Level 3. We have no financial assets or liabilities included in Level 3 of the hierarchy.   |

## ORLA MINING LTD.

Camino Rojo project loan	Amortized cost	13,445	—	13,445	—	—	25,000
Newmont loan	Amortized cost	8,093	—	8,093	—	—	8,538
		\$ 22,549	\$ —	\$ 21,585	\$ —	\$ 964	\$ 34,549

The fair value of the Newmont loan at September 30, 2020 was estimated at \$8.5 million using an exchange rate of 22.4573 MXN/USD and a discount rate of 10.6%.

At December 31, 2019, the carrying values and fair values of our financial instruments by category were as follows:

	Classification	Carrying value	Fair value				Fair value
			Quoted prices in active market for identical assets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)	Approximate fair value due to short term nature of the instrument	
<b>Financial assets</b>							
Cash and cash equivalents	FVTPL	\$ 23,106	\$ 23,106	\$ —	\$ —	\$ —	\$ 23,106
Accounts receivable	Amortized cost	18	—	—	—	18	18
Restricted funds	Amortized cost	509	—	509	—	—	509
		\$ 23,633	23,106	\$ 509	\$ —	\$ 18	\$ 23,633
<b>Financial liabilities</b>							
Trade payables	Amortized cost	\$ 802	\$ —	\$ —	\$ —	\$ 802	\$ 802
Lease obligation	Amortized cost	67	—	—	—	67	67
Camino Rojo project loan	Amortized cost	12,961	—	12,961	—	—	12,961
Newmont loan	Amortized cost	9,647	—	9,647	—	—	9,647
		\$ 23,477	\$ —	\$ 22,608	\$ —	\$ 869	\$ 23,477

Our policy is to recognize transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

## ORLA MINING LTD.

Notes to the Condensed Interim Consolidated Financial Statements  
Three and nine months ended September 30, 2020 and 2019

(Unaudited – United States dollars, unless otherwise stated. All currency figures in tables are in thousands, except per-share amounts)

---

### 20. COMMITMENTS AND CONTINGENCIES

#### (a) Commitments

During the period ended September 30, 2020, the Company issued purchase orders for long lead equipment necessary for the construction of the Camino Rojo mine. At September 30, 2020, these outstanding purchase orders and contracts totaled approximately \$47,300,000 (December 31, 2019 – \$2,483,000), which we expect will be filled within the next 12 months.

In the event of a change in control, the Company is committed to severance payments amounting to approximately \$2,860,000 (December 31, 2019 – \$2,020,000) to certain officers and management. No amounts have been recorded in these consolidated financial statements to reflect such severance payments.

#### (b) Litigation

We may, from time to time, be a party to legal proceedings, which arise in the ordinary course of our business. We are not aware of any pending or threatened litigation that, if resolved against us, would have a material adverse effect on our consolidated financial position, results of operations or cash flows.

### 21. EVENTS AFTER THE REPORTING PERIOD

#### (a) Share Issuances

Subsequent to the reporting period, the Company drew on the second tranche of the Camino Rojo project loan (note 9) and issued common shares from the exercise of stock options (note 14(a)).
