GUIDE TO CORPORATE GOVERNANCE OF THE BOARD OF DIRECTORS

GENERAL

National Policy 58-201 Corporate Governance Guidelines and National Instrument 58-101 Disclosure of Corporate Governance Practices became effective on December 31, 2007. These materials recommend corporate governance policies for reporting issuers and provide the framework for disclosure of these policies to the public.

The Board considers good corporate governance to be essential to the fiduciary obligations of the directors to its shareholders and integral to the ongoing good management and development of the Company. The Board has developed this Guide to Corporate Governance.

1. COMPOSITION OF THE BOARD

The Board has determined that the Company requires between 5 and 8 directors to effectively manage the Company's affairs. A majority of the directors must be independent. The directors are elected annually at the Company's annual general meeting of shareholders and individual directors must meet the requirements of the stock exchange on which the Company's shares are listed and the requirements of applicable securities and corporate legislation.

The Chairman of the Board shall be an independent director, unless an Executive Chairman is appointed. Where an Executive Chairman is appointed or there is a vacancy in the Chairman of the Board position, an independent director shall be appointed to act as "Lead Director". Either an independent Chairman or an independent Lead Director shall act as the effective leader of the board and shall ensure that the Board's agenda will enable it to successfully carry out its duties.

2. MEETINGS OF THE BOARD OF DIRECTORS

The Board of Directors shall meet at least four times per year. The Board may also hold additional meetings from time to time as business needs require.

The independent directors of the Board are given the opportunity to meet, without members of management, at each regularly scheduled board meeting, or as otherwise required.

3. MANDATE

The mandate of the Board is to supervise the management of the Company and to act in the best interests of the Company. The Board acts in accordance with the British Columbia *Business Corporations Act*; the Company's Articles of Incorporation; the Company's Code of Business Conduct and Ethics; the Mandate of the Board and the charters of the Board's committees and other applicable laws and policies. The Board approves significant decisions that affect the Company before they are implemented. As a part of its overall responsibility for the stewardship of the Company, the Board assumes responsibility for the following:

a. *Stewardship*

The Board sets and supervises standards of corporate governance that create a culture of integrity throughout the Company, and guides the operations of the Company and management in compliance with the Company's constating documents and British Columbia corporate law, securities legislation in each jurisdiction in which the Company is a reporting issuer, and other applicable laws.

b. *Strategic Planning*

The Board is actively involved in the Company's strategic planning process. Management discusses and reviews materials relating to the strategic plan with the Board. The Board is responsible for reviewing and approving the strategic plan, which takes into account the opportunities and risks of the business. Near the beginning of each year, the Board undertakes a review of the strategic plan to assess the strengths, weaknesses and overall results of that plan. The Board also receives reports from management throughout the year on the current and proposed operations of the Company and reviews opportunities and assesses risks so that the strategic plan can be adjusted. The Board also receives a specific risk analysis and risk management and mitigation plan from management each year in support of its review of the risk factor section of the Annual Information Form.

c. *Dealing with Risks*

The Board, in its annual assessment of the strategic plan, reviews principal risks and considers management's plans to monitor and manage risk. The principal risks to the Company have been identified as risks relating to the financing, environment, safety, securities markets, commodity prices, government regulation, title issues and the fact that mineral exploration and development activities are inherently risky. The Board has instructed management to assist the Board in identifying risks and to promptly alert the Board when a risk has materialized or materially changed. The Board may from time to time appoint management, board members or advisors to assist in assessing different risks.

d. *Succession Planning*

The Board, through the Compensation Committee, annually identifies key individuals of the Company and, in consultation with management, determines how to replace such individuals should the need arise. Management is assigned the responsibility of training and advising new persons of the Company's policies and practices. The CEO has primary responsibility for supervising and reviewing the performance of senior management.

e. *Disclosure Policy*

The Corporate Disclosure Policy governs communication with shareholders and others and reflects the Company's commitment to timely, effective and accurate corporate disclosure in accordance with all applicable laws and with a view to enhancing the Company's relationship with its shareholders.

f. *Internal Control and Management Information Systems*

The effectiveness and integrity of the Company's internal control and management information systems contribute to the effectiveness of the Board and the Company. To maintain the effectiveness and integrity of the Company's financial controls, the Board, through the Audit Committee which consists solely of independent directors, provides oversight and monitors internal control and management information systems.

g. *Approach to Corporate Governance*

The Board has appointed a Corporate Governance and Nominating Committee composed solely of independent directors, and which has overall responsibility for developing the Company's approach to corporate governance, including keeping informed of legal requirements and trends

regarding corporate governance, monitoring and assessing the functioning of the Board and committees of the Board, and for developing, implementing and monitoring good corporate governance practices in the form of the Company's Guide to Corporate Governance. The Compensation Committee is responsible for reviewing and approving the specific goals and objectives relevant to CEO compensation and recommending them to the Board for approval.

5. ORIENTATION AND CONTINUING EDUCATION

The Board takes the following measures to ensure that all new directors receive a comprehensive orientation regarding (i) the role of the Board, its committees and its directors, and (ii) the nature and operation of the Company's business:

- i. each new director is provided with a copy of the Board Manual, which contains the Company's policies and provides a comprehensive introduction to the Board, its committees and its directors; and
- ii. each new director brings a different skill set and professional background, and with this information, the Chairman of the Board is able to determine what orientation to the nature and operation of the Company's business will be necessary and relevant to each new director.

The primary responsibility for monitoring continuing education is within the mandate of the Corporate Governance and Nominating Committee. The Board takes the following measures to provide continuing education for its directors in order that they maintain the skill and knowledge necessary for them to meet their obligations as directors:

Directors and officers are instructed to report instances of non-compliance with the Code to the Chair of the Audit Committee.

7. NOMINATION OF DIRECTORS

The Board has appointed a Corporate Governance and Nominating Committee composed solely of independent directors. The Corporate Governance and Nominating Committee is responsible for identifying individuals qualified to become new board members and recommending to the Board the new director nominees for the next annual meeting of shareholders. New nominees must have a track record in general business management, special expertise in an area of strategic interest to the company, the ability to devote the time required and a willingness to serve.

The Board adheres to the following process, with the input and advice of the Corporate Governance and Nominating Committee, prior to nominating or appointing individuals as directors:

- a. The Board determines the appropriate size of the Board, with a view to facilitating effective decision-making. At the present time, the appropriate size is considered to be between five and eight members.
